

MARCH 2026

## European labour mobility-led Career and Service-Learning System in Higher Education

Project Number: 2024-1-SI01-KA220-HED-000252281

### Newsletter – Training Mobility in Novo Mesto (23–27 March 2026)

We are excited to announce the upcoming Training Mobility in Novo Mesto, Slovenia, taking place from 23 to 27 March 2026, organized within the framework of the ELIX – European labour mobility-led Career and Service-Learning System in Higher Education project.

This international training mobility will bring together partners, educators, and professionals from across Europe to exchange knowledge, develop innovative educational practices, and strengthen collaboration in higher education.

During the five-day programme, participants will take part in interactive workshops, collaborative sessions, and training activities focused on:

- Career development and employability in higher education
- Community Service Learning (CSL) methodologies
- Digital tools and innovative learning environments
- Strengthening partnerships between academia, industry, and civil society

Hosted by the University of Novo mesto, the training will provide a valuable opportunity for participants to enhance their skills, share best practices, and contribute to the development of new approaches that support students' career pathways and civic engagement.

Beyond the training sessions, the mobility will also offer participants the chance to experience the culture of Novo Mesto and build strong international networks among partner organisations.

We look forward to a productive and inspiring week of learning, collaboration, and innovation!

Location: Novo Mesto, Slovenia

Dates: 23–27 March 2026

Stay tuned for updates and highlights from the mobility!
